RE: Oneida County Jail, 2017 Annual Inspection

Dear Sheriff Hartman:

The 2017 annual inspection of the Oneida County Jail was completed on October 19, 2017 pursuant to Wisconsin Statute 301.37(3). The inspection compared the facility and its operations to the Department of Corrections Administrative Code, Chapter DOC 350, and to applicable state statutes. The Oneida County Jail has an approved rated capacity of 203. On the day of the inspection there were 171 inmates in custody (159 male, 12 female). The facility also maintains a contract with the Department of Corrections to house state inmates which is included in the total population. This report summarizes the findings of the inspection.

INSPECTION SUMMARY

Summary of Progress from the Previous Year

Since the last annual inspection in 2016, a significant number of operational changes and improvements have been realized at the Oneida County Jail. Some of these include the following:

- ➤ Video visitation has been installed, along with the ability to send emails and text messages (SMS).
- ➤ The housing unit kiosks now include request forms, grievances and special requests to medical staff and jail administration. Inmates must also review and acknowledge information regarding the Prison Rape Elimination Act (PREA) prior to utilizing the kiosk for other matters.
- ➤ The jail has implemented a paperless procedure for inmate files via the jail management system and use of a signature pad.

- ➤ Purchased larger televisions for the general population housing units.
- ➤ Commenced implementation of a GED program.
- ➤ Installed pull up bars for inmate use in the housing units.
- ➤ Implemented a snack night for the inmate population that permits them to purchase items from the kitchen each night.
- ➤ All cellblocks have been painted and the floors waxed.

Physical Environment

The inspection included a walkthrough of the facility that included housing units, programming rooms, intake, kitchen, laundry, property room, and health services unit. At the time of inspection, F dormitory did not house any inmates although it is still functional. Overall, the facility was found to be clean and well maintained during the inspection. It is apparent that staff is holding inmates accountable for their living areas. The monthly safety and sanitation checks continue to ensure that jail maintenance concerns are addressed in a timely manner.

However, there were numerous cells in each of the housing units where the vents located by the cell bunks were covered with toilet paper, thus blocking the HVAC system from ventilating the cells as intended. Paint was also found to be chipping away in the lower level showers in cellblocks B and C. The ADA shower railings in cellblock F and G dormitory are rusting and beginning to show slight signs of molding. It was also suggested that administration review the feasibility of utilizing bins for inmate property to reduce clutter from the cells.

The two court holding rooms were also inspected and were found to be clean and well maintained.

-	·	·	•	•	

The fire extinguishers located in the laundry and kitchen were found to be in need of inspection by the fire department. If not already completed, please have these extinguishers inspected as soon as possible.

Jail Operations

Security practices are being completed as required, including monthly door and lock inspections, key control inventory, fire inspections (last completed on 5/5/17 for the jail and 5/3/17 for the courthouse by the City of Rhinelander Fire Department), monthly fire safety inspections, fire drills on each shift, SCBA checks, inmate classification, and physical security observation checks.

A random review of the "Officer Activity Log" for physical security checks indicated that checks are being completed at irregular intervals. However, there were some instances where staff exceeded the required 60 minute checks. Please ensure that all physical security checks are completed in a timely manner.

Oneida County Sheriff's Office policy also requires that physical security checks of the receiving cells in the intake area to be completed

Although not a violation of administrative code, the random review of the activity log showed that these checks were frequently being documented beyond the policy requirement. According to jail administration, this matter has been addressed with staff. It is suggested that supervisory staff increase their reviews of the "Officer Activity Log" more frequently to ensure officer accountability in conducting physical security checks.

Cell checks of the two court holding rooms were found to be in compliance with department policy. Similarly, physical security checks of those placed on a suicide watch showed that they were being completed within 15 minutes and at irregular intervals in accordance with administrative code.

A disciplinary system is in place to address inmate rule violations. A range of sanctions are in place that is dependent upon the type of infraction violated. Inmates are being notified of the charge(s) and right to a hearing at least 24 hours in advance of the hearing, unless it is waived by the inmate. In accordance with administrative code, disciplinary hearings are being completed within 7 days, but typically sooner. Disciplinary appeals are handled by jail administration and a record of all actions maintained. A review of disciplinary reports showed them to be well written and explanatory as to the reason(s) for the violation(s).

Objective jail classification continues to be used to determine inmate housing assignments, and an inmate grievance procedure is in place that permits inmates to address any concerns regarding

the condition of their confinement. An inmate grievance appeal process is also in place. A grievance database is maintained that allows administration to monitor the facility's inmate climate. However, it was suggested that the database be expanded/modified to enable the ability to query the category of inmate complaints (e.g., medical, food service, staff, property) so that administration can ascertain on a monthly basis, for example, which particular area(s) of operation are in need of review.

A review of completed use of force reports indicated that staff is providing excellent detail on their actions, the circumstances surrounding the incident, as well as the actions of the inmate. All use of force reports are reviewed by a POSC instructor and jail administration. It was suggested that if a POSC instructor is not available, the use of a DAAT instructor would also be appropriate.

Health Care

Health care services at the jail continue to be provided by Aspirus Business Health. Health care staff availability to inmates at the facility is good, with nursing staff on-site for approximately 62.5 hours per week (12.5 hours per day M-F). There is no nursing hours provided on the weekends. A Nurse Practitioner is at the jail for approximately 3-4 hours per week typically on Tuesday and Friday.

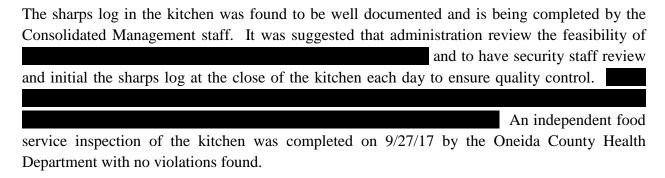

There was concern expressed regarding the minimal number of hours mental health services are available on-site to the inmate population. Currently, a Licensed Professional Counselor is at the jail once per week for approximately 4-5 hours. Although services are also available through Oneida County's Social Services, with certified screeners releasing inmates from suicide watches after face-to-face assessments as required in administrative code, given the size of the population at the jail, it is recommended that jail administration work toward significantly increasing the hours of a qualified mental health professional being on-site.

Health screening forms are being completed on each individual booked into the jail, with nursing staff reviewing these forms daily and documenting that they have reviewed the information. Routine sick call is conducted when nursing is available, with inmates typically being assessed within 72 hours of request. Medications entering the facility are verified and inventoried by a nurse, with medications being delivered to inmates by nursing staff twice per day M-F, and by security staff on the weekends. Health appraisals are being completed on each inmate within 14 days of admission to the jail (typically around 7-10 days).

Food Service

Inmate meals continue to be provided by Consolidated Management Company with the assistance of a limited number of inmate workers. A walkthrough of the kitchen showed it to be clean, well maintained and organized. Consolidated Management Company utilizes a 4-week menu cycle that offers a variety of meals and maintains appropriate caloric content at an average

of 2850 calories per day. All menus are reviewed by a registered dietician, and two of the meals each day are hot. Temperature logs are also being maintained for the cooler, freezer, and meals. There were a number of days were there was no documentation of the temperature logs for the cooler, freezer and meals. Additionally, no documentation was provided for the refrigerator located in the Huber area but this was rectified immediately by the kitchen. Please ensure that these temperature logs are completed on a daily basis. Staff is also completing a monthly internal inspection of the kitchen area in accordance with administrative code.

According to the information provided during the inspection, there are a limited number of programs available to inmates confined to the jail. Programs that are available to the inmate population include the following:

- ➤ Bible Study
- ➤ Alcoholics Anonymous
- > GED programming
- ➤ Non-Denominational Sunday Church service

The inspection also included a review of the facility's practices regarding inmate services. Blankets are being exchanged on a monthly basis, with issued clothing items laundered twice per week, and linens once per week. The facility maintains policies and procedures for inmate services such as mail (incoming/outgoing), visitation, reading materials, and canteen. The policies and procedures in operation indicate that all inmates are being provided reasonable access to jail services.

Approval

On the date of the inspection there were **no violations of Administrative Code** found at the facility. You and your staff should be commended for the quality of work being accomplished to ensure the safety and security of the jail and Oneida County. Jail Administrator Neuman and the rest of the staff continue to do a great job with the operation and management of the facility.

I would like to thank Jail Administrator Mark Neuman and Assistant Jail Administrator Keith Fabianski for their assistance during the two days of the inspection. Please feel free to contact me should you have any questions, or if I can be of assistance to you and your Department.

Sincerely,

Gregory A. Bucholtz, Inspector

Office of Detention Facilities DOC-2744 (4/2015)

DOC 350.24 Discipline. The jail shall have policies and procedures outlining inmate discipline and due process.

DOC 350.24 (1) Inmates rules of behavior. Every jail shall have written rules of behavior for inmates. At the time of admission, each person shall be notified verbally of the existence of jail rules for inmate behavior and the potential disciplinary actions for violations of the rules. Each inmate shall be provided with a copy of the jail rules or copies of the rules shall be posted in conspicuous places in the jail.

DOC 350.24 (2) Discipline for minor violation. (See code for specific language.)

- (a) A minor discipline is a verbal or written reprimand, restriction of privileges or placement in disciplinary segregation for 24 hours or less.
- (b) Inmate is informed of violation, potential discipline and disciplinary procedures for minor violations.
- (c) Inmate has opportunity to make verbal statement about alleged violation to a staff member
- (d) Staff member may impose a minor discipline if found that violation occurred
- (e) Supervisor is informed of incident by staff member. If supervisor concludes violation is major, then it shall be handled in accordance with Sub. (3). If supervisor finds that no violation occurred, the inmate shall be notified that the charge has been dismissed.
- (f) Inmate is notified of right to appeal and of appeal procedure.
- (g) Information made part of inmate's file. If supervisor finds no violation occurred, the due process records shall reflect those findings.

DOC350.24 (3) Discipline for major violation. (See code for specific language.)

- (a) A major discipline is restriction of privileges for more than 24 hours, placement in solitary confinement for more than 24 hours in accordance with s. 302.40, Stats., loss of good time in accordance with s. 302.43, Stats., restrictions affecting Huber law privileges in accordance s. 303.08, Stats., or restrictions affecting work release in accordance with s. 303.065, Stats.
- (b) Written report to supervisor within 24 hours of incident
- (c) Inmate notification of charges and right to hearing 24 hours in advance of hearing.
- (d) Due process hearing within seven calendar days, unless inmate waives the right to a due process hearing.
 - 1. Impartial hearing officer or committee (not involved in incident)
 - 2. Inmate's right to be present at hearing, make a statement and present evidence. Reason for inmate's absence documented.
 - 3. Inmate's right to present witnesses. Reason for absence of witness documented.
 - 4. Inmate's right to staff advocate if inmate is illiterate or if issues are complex.
 - 5. Hearing officer may consider inmate's mental illness, developmental disability or other emotional or mental disability as a mitigating factor in imposing discipline.
 - 6. Written decision stating discipline administered. Copy to inmate.
 - 7. Inmate is notified of right to appeal and appeal procedure
 - 8. Incident information, discipline administered and decision shall be made part of inmate file. If found no violation occurred, the due process records shall reflect those findings.
- e) If inmate waives right to a due process hearing, violation shall be disposed of in accordance with procedures for minor violations. Major discipline may be imposed if relevant staff member finds a violation occurred. Waiver does not constitute an admission of the alleged violation.

350.24(4) Classification.

- (a) The department shall provide each jailer a standardized form for recording the medical conditions and history of prisoners being transferred to the department or another county's jail. Except as provided in pars. (b) and (bm), jail medical staff shall complete the form and provide it to the receiving institution intake staff at the time of each such transfer.
- (b) If the jail does not have medical staff on duty at the time of a transfer, the jailer or his or her designee shall complete as much of the form as possible and provide it to the receiving institution intake staff at the time of the transfer. The jailer shall ensure that all of the following occur within 24 hours after the transfer.
 - The jail medical staff, the prisoner's health care provider or, if the prisoner does not have a health care provider, a health care provider under contract with the jail reviews the form provided to the receiving institution at the time of the transfer.
 - The medical staff or health care provider reviewing the form corrects any errors in the form and includes in it any additional available 2. information.
 - The medical staff or health care provider reviewing the form transmits the updated form or the information included on the form by the quickest available means to the receiving institution intake staff.

(bm) Jail medical staff need not complete the form if the jailer or his or her designee provides a copy of the prisoner's complete medical file to the receiving institution intake staff at the time of the transfer.

- (f) Receiving institution intake staff may make a health summary form available to any of the following:
 - 1. The prison's or jail's medical staff.
 - 2. A prisoner's healthcare provider.
 - 3. In the case of a prison or jail that does not have medical staff on duty at the time of the transfer, a health care provider designated by the department or the jailer to review health summary forms.
 - 4. In the case of a jail that does not have medical staff, a person designated by the jailer to maintain prisoner medical records.

MAINTENANCE OF JAIL, SANITATION AND CARE OF PRISONERS

Wisconsin State Statute 302.37 Maintenance of jail and care of prisoners.

Wisconsin State Statute 302.37 (1) (a) The sheriff or other keeper of a jail shall constantly keep it clean and in a healthful condition and pay strict attention to the personal cleanliness of the prisoners and shall cause the clothing of each prisoner to be properly laundered. The sheriff or keeper shall furnish each prisoner with clean water, towels and bedding. The sheriff or keeper shall serve each prisoner 3 times daily with enough well-cooked, wholesome food. The county board shall prescribe an adequate diet for the prisoners in the county jail.

Wisconsin State Statute 302.37(3)(a) The county or municipality shall furnish its jail with necessary bedding, clothing, toilet facilities, light and heat for prisoners

Wisconsin State Statute 302.37 (4) The sheriff or other keeper of a jail may use without compensation the labor of any prisoner sentenced to actual confinement in the county jail or, with the prisoner's consent, any other prisoner in the maintaining of and the housekeeping of the jail, including the property on which it stands. Any prisoner who escapes while working on the grounds outside the jail enclosure shall be punished as provided in s. 946.42.

- A daily inspection is conducted by jail staff of housekeeping, sanitation, and physical plant maintenance.
- The jail is constantly clean and in a healthful condition.
- Inmate areas are free of graffiti, posters, wall coverings, etching, etc.
- All surfaces, equipment, and facilities are clean and in good repair.
- Air handling systems, including ventilation screens and covers, are clean, unobstructed, and in good working order.
- Inmate personal property allowed in the housing units is subject to limitations on volume and content.
- Inmates are held accountable for making the beds, cleaning the floors, cleaning the common bathroom facilities, properly storing property, and maintaining cleanliness and order in the housing units daily.
- Inmates and staff are held accountable for housekeeping and sanitation deficiencies.
- Identified maintenance needs are addressed in a timely manner.
- Hallways are free of clutter and obstructions.
